**ALSO, you can order sliced turkey per pound if the packages above are too large for your family!**

**Both the Ham and Turkey (as well as our other meats) can be slowly re-heated at about 250 degrees for 5 minutes per pound, to keep all the delicious juices intact (serve temperature should be about 150F). So for whole Hams/ Turkeys (10#) that would be about 50 minutes. A little bit of apple juice in the bottom of the pan can add a nice flavor profile during the cooking process and increase the moisture for all the meats besides Brisket. For Brisket we recommend using a little bit of beef stock.**

**For half pan side items we recommend 30 minutes at 325 degrees. However, we also recommend you temp periodically as each oven will vary.**

**Thank you for supporting a local business and as always Happy Holidays!**
